Product data sheet www.dino-lite.eu

Dino-Lite MS36B stand

Square metal base with column and support providing several adaptable heights. The MS36B has a horizontal beam to enable additional flexibility in the horizontal plane. Includes two special Dino-Lite holders.

The MS36B stand is designed for use with the complete line of Dino-Lite digital microscopes and comes with a Dino-Lite scope mount with fine adjustment feature.

This sturdy and versatile stand utilizes an adjustable sliding horizontal boom arm with up to 25cms of reach and 360 degrees rotational capability making it ideal for inspection applications where the ability to extend out over and across a specimen is required.

The precision machine crafted components provide smooth horizontal and vertical adjustment positioning in a well balanced and stable ergonomic design. Manufactured from a combination of resilient stainless steel and lightweight recycled aluminum, the MS36B stand is very portable and it is easy to move it from one work area to another. At the same it is able to endure the harshest of working environments.
